

Code Review Club

A group to talk about coding

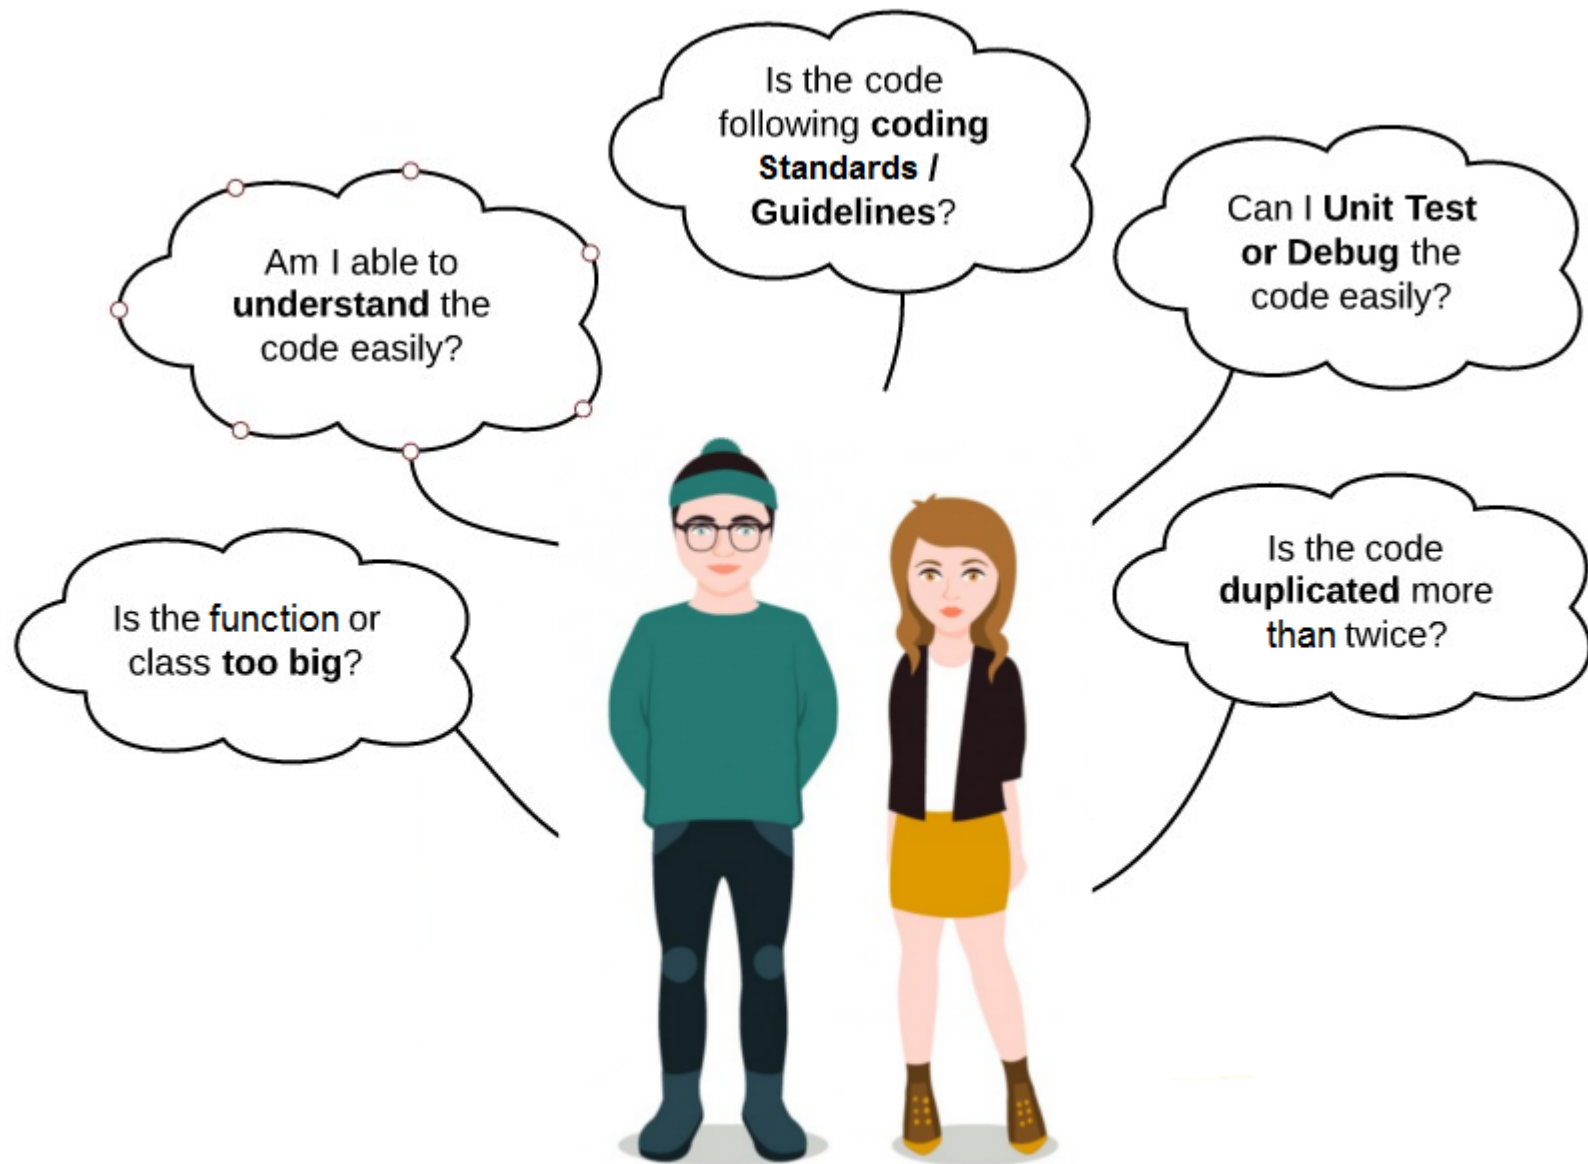

THE ART OF PROGRAMING

Rules

- 200 lines or less of code for 1 hour
- **Everyone** (strongly) encouraged to present
- Moderate discussion
- Don't get hung up on stylistic choices
- Avoid stating opinion as fact
- Don't shame raw code
- Be careful of assumed knowledge (e.g. jargon)

Discussion Topics

- Does the code perform as expected?
- Are coding guidelines followed (e.g. PEP-8)?
- Is the code easy to read and understand?
- Is the code properly documented?
- Is the code efficient (enough)?
- Testing
- Licensing
- Compare to previous methods
- Dependencies
- See github.com/astropy/CONTRIBUTING.md
